DETAILED ACTION

Allowable Subject Matter

1. Claims 2-8, 11, 12 and 14-27 are allowed over the Prior Art of record.
2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of the independent claims 7, 11, 24 and 25 is the inclusion of the limitations of an apparatus and/or method for/of testing a first and second item (cork stopper, in claims 7, 24 and 11) for the presence of an analyte (i.e. odor) wherein both sensors and items are moved and wherein the sensors are in electronic/electrical communication to make them operational when moved into a particular position/location. As to claim 20, the primary reasons for allowance is the inclusion of the limitations for an apparatus for testing each one of a plurality of cork stoppers for the presence of an analyte that causes cork taint in wine having first and second for moving the stoppers and sensors, respectively, and wherein the second system comprises a linear conveyer that conveys each of the plurality of sensor to a second position. These specific limitations were not found in the Prior Art, most particularly, in the testing of cork stoppers for presence of an analyte employing these non-obvious specific claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
